# Heavy Duty Dock Systems

## RAISED AND GROUND DOCK SHELTERS

The solution to creating a sheltered seal between dock opening and vehicle, which helps create a comfortable working environment and reduces costly heat loss.

- Heavy Duty full height re-inforced dock shelters
- Double spring scissor action impact absorbers with heavy duty apron to prevent damage to the building
- Can be supplied to fit specific customer requirements - CALL FOR DETAILS!

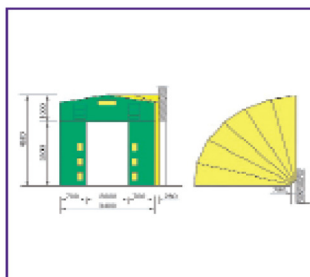

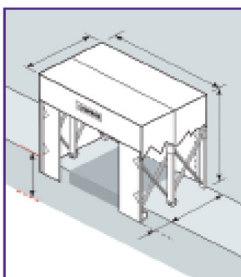

Description	Dimensions W x H x D mm	Model	Price Each	Price 3+
Raised Dock Shelter	3400 x 3500 x 650	KDRL	£1450.00	£1395.00
Ground Dock Shelter	3400 x 4500 x 700	KDG	£3455.00	£3055.00

## GROUND AND RAISED DOCK TUNNELS

KDTR is used to cover large distances between vehicle and loading door. This is a unique and very flexible facility which has many more applications other than transport docks. KDT rotates for applications where direct address cannot be achieved

- Can be supplied to fit specific customer requirements - CALL FOR DETAILS!
